## SYNOPSIS OF ALGO MALL

ALGO MALL aims to become the top-tier NFT Marketplace of ALGO network. Transactions shall cost low fees, fast transaction period and most importantly, a great user experience. Our mission is to become the leading marketplace of choice for sellers and buyers of digital art (NFTs).

We strive to develop a platform that harnesses the power of technology offered by Blockchain, Smart Contracts, and Cryptography. Our mission is to enable digital art creators, curators and investors likewise to have a place where they can utilize their digital arts (NFTs) cost-effectively. Part of our long-term plans is to expand the chains our NFT Marketplace supports. Thus, making ALGO MALL a Cross-chain NFT platform.

## FEATURES OF ALGO MALL NFT MARKETPLACE

- Low transaction fees
- Fast confirmation – fast transaction on the marketplace
- Lowest NFT proceed charge ever- ALGO MALL will charge only 0.5% of NFT sale proceeds
- Great flexibility and accessibility for users
- Users will be able to view all their NFTs from their profile, even without listing on ALGO MALL or even purchasing those NFTs from the marketplace.

## WHY ALGO BLOCKCHAIN?

Algorand was invented to speed up transactions and improve efficiency, in response to the slow transaction times of Bitcoin and other blockchains. Algorand is designed so that there are lower transaction fees, as well as no mining (like Bitcoin's energy-intensive process), as it is based on a permissionless pure proof-of-stake (PoS) blockchain protocol.
